

This week, we meditate on the powerful and life-changing love of God for each of us. This rendition of Psalm 139 speaks to us about the inescapable gift of love of God for each soul. Celebrating our Little Flower *Respect Life Month*, we dedicate this week to mothers and babies; we remember the surrendering and faithful character of God's *mothering* love for each of us. A mother's love - like God's love - is inescapable; we cannot hide from it! God's tender love - like a mother's love - is nourishing, caring, guiding - tireless. As we view and listen to our song today, we remember the blessings of God's life through the faithfulness and dedication of all mothers to their children. A mother's love for their babies is a reflection of God's gift of life-nourishing and transformative love for each soul. It is a reminder that each person is God's CHOICE and a precious gift, and it is meant to be received as such.

You are God's CHOICE; you are a gift.

"Before I formed you in the womb I knew you, before you were born I set you apart..." (Jeremiah 1:5)

Lord, make my life be a life lived in you.
